

Rocus CyberFusion™ is the all-in-one cybersecurity solution that ensures your clients, and their data, are protected.

Law firms are a growing target for hackers looking to exploit consumer information and business intelligence. Not only is there an ethical obligation to protect client information but data protection laws hold serious consequences.

Rocus CyberFusion™ was created as an end-to-end solution to protect organizations like yours from cyberattacks, data leakage, and breaches. With our comprehensive security platform in place, you can assure your clients that their information is highly secure and also maintain compliance in the complicated and evolving regulatory environment.

Why Rocus CyberFusion™?

- **PREVENTION FIRST:** Prevent attacks, rather than relying on human intervention after a breach occurs
- **24x7x365 SECURITY:** Our SOC team detects, responds, contains and remediates threats. You would need to employ 4-6 cybersecurity experts, monitoring all day, every day, to get the same protection
- **ALL-IN-ONE:** Rocus CyberFusion™ integrates it all for you and continually provides updates with the latest, most effective technology
- **WHITE-GLOVE SERVICE:** We provide “virtual CISO” advisory services and real people to talk to when you need help
- **AFFORDABLE:** Pay one, low monthly rate
- **FREE SECURITY AUDIT:** Our team of security engineers will evaluate your current environment and provide recommendations

Rocus CyberFusion™ combines best-in-class, enterprise-grade prevention tools, using the industry's best resources to protect your organization.

Instant Visibility

Access your organization's critical cybersecurity information, anytime.

CyberFusion™ includes a dashboard on your screen giving you instant, by-user visibility to malicious activity, blocked viruses, applications used, websites accessed, files accessed and shared, and bandwidth consumed.

See where and what information your employees are accessing to ensure data is being properly used and shared.
